Week 3 Honors Quiz

Question 1
You have a file called **report.sql** with the following query in it:
SELECT * FROM accounting.current WHERE month= '${var:month}';
Which command will run this query correctly for the month **October**?
Ans: impala-shell —var month='October' -f report.sql

Question 2
Which will properly use either Beeline or Impala Shell to run a file of SQL commands from within a shell script?
Ans: $ beeline -u jdbc:hive2://localhost:10000 -f filename
$ impala-shell -f filename
